

Paper Bags for Storing Your Reusable Masks

Storing your reusable mask between uses in a clean paper bag can help keep the mask clean and allow the mask to breathe and dry out.

The round handles of paper shopping bags can be used to hang a mask between uses for safe storage inside of the bag.

1. Label the bag with your name.
2. Label one side of the bag “*Front*”.
3. Remove mask by the ear loops.
4. Do not touch outer parts (*front*) of the mask.
5. Hang one of the ear loops on the front-side handle of paper bag. The outer part of the mask (*front*) should face the front side of bag.
6. Wash your hands.

Did you run out paper bags with handles? No problem! Just use a clean paper bag.

1. Label the bag with your name.
2. Remove mask by the ear loops.
3. Fold the outer parts (*front*) of the mask together.
4. Place it in a clean bag.
5. Wash your hands.

IMPORTANT

- When a mask becomes damp or humid, replace it with a new mask.
- If you wear a disposable mask, please discard after taking it off. Do not reuse a single-use mask.
- Wash your hands with soap and water for at least 20 seconds or use alcohol-based hand sanitizer before wearing the mask and after you have taken off your mask.
